New York, 8.—At the session of the national butter, egg and cheese association, to-day, a paper on the relation of the cow to civilization was read. The committee reports were heard and premiums on butter announced. The convention closes to-morrow. It has been a success. The dairy fair is a failure financially.

That Tobacco Case.

Washington, 18.—Counsel in the celebrated tobacco case of the Union Pacific against Rothchilds, of Detroit, were at the treasury department, to-day, endeavoring to have the government consent to a continuance. The solicitor has already instructed the district attorney to press the case to trial. It is understood Senator Conger had a stormy interview with the solicitor on the subject.

General Burbank Dead.

Cincinnati, 8.—General Sidney Burbank, of the United States army, retired, died last night at Newport, Ky. He graduated from West Point in 1839; he served in the Black Hawk and Seminole wars, and at various frontier recruiting posts, the last being Newport barracks, where he was in 1861. He served in the army of the Potomac during the war, and was breveted brigadier general. He was aged 71 years. A son survives, Clayton Burbank, lieutenant in the Tenth Infantry.

The Cold Wave.

Kansas City, 8.—The recent severe weather has done little injury to the winter crops or stock in the country west and southwest.

Detroit, 8.—The Tugs *Baltic* and *Kate Williams* succeeded in getting out of the ice and returned to this river safely. The *Unadilla* is still stuck off Bar Point. She is wheat laden and bound for Buffalo. A gang of men has been sent from Detroit to work the pumps on the *Bessel* to keep her afloat.

Minneapolis, 8.—Dispatches from various localities throughout the northwest show that the cold wave subsided as suddenly as it rose. At the 6 this evening the following reports were received: Bismarck 18° above, Jamestown 12° above, Fargo 30° above, Duluth 25° above, Breckenridge 18° above, Minneapolis 13° above, St. Clouds 10° above, Winnipeg 5° above, Stevenson 10° above, Pembina 8° above. Most of the points mentioned indicate falling weather.

Petersburg, Va., 8.—The weather last night and this morning was colder by 23 degrees than at any time last winter. Many hydrants are frozen in St. George County. An unknown man was frozen to death. To-night is still very cold.

Ottawa, 8.—Very cold weather throughout Ontario ranging from zero to 10 degrees below.

XLVII. CONGRESS.

SECOND SESSION.

SENATE.

Washington, 8.—Military committee decided to report favorably all recent army nominations.

A number of petitions were presented to increase the pensions of one armed and one legged soldiers, and that, if the tax on tobacco were reduced, a corresponding rebate be allowed.

On motion of Morrill, the internal revenue bill, with amendments, were recommitted to the committee on finance.

The bill passed to rectify and establish the title of the United States to the military post of El Paso, Texas.

Beck called up the resolution of inquiry into the political assessments. Hale said the democratic party had placed rich men on its committee to get contributions, and had assessed liquor men heavily.

At 2 o'clock the bankruptcy bill was taken up.

Jones, of Florida, offered an amendment giving a party sought to be thrown into involuntary bankruptcy a right to demand a jury trial as to the grounds of bankruptcy. Agreed to.

Morgan offered an amendment making it an act of bankruptcy in dealing, in futures, in certain articles of prime necessity, such as corn, sugar, cotton, rice, etc. Agreed to.

Hear made an address advocating the Lowell bill.

Adjourned.

HOUSE.

Washington, 8.—Burrows, from the committee on appropriations, reported the consular bill. Referred to the committee of the whole. It appropriates \$1,258,000, being \$80,000 less than last year, and \$132,000 below the estimates. Burrows will ask action on it to-morrow.

The House went into committee of the whole on the private calendar, and became involved in a discussion over the renewal of a patent. After further discussion, the enacting clause of the bill was, on motion of Brown, stricken out.

The House foreign affairs committee agreed to report favorably the bill guaranteeing seventy-five million three per cent. bonds, to aid the construction of the Nicaragua Canal.

Cheaper Postage.

Washington, 8.—Bingham, in his report to the House urging a reduction in letter postage to 2 cents, gives statistics back to 1792, when the rates for carrying a letter was 6 cents for a distance of 30 miles; 25 cents for 450 miles; also a careful estimate, based on history, of the reduction in the past, which sustains his theory, that the stimulus to letter writing which would naturally be caused by the reduction, would greatly lessen the estimated loss of the first year, which (not counting such increase of letters) would only reach 1,000,000.

The entire loss, as reported assumes it could be offset by a fair allowance for carrying government mail; also should the reduction not take effect till January 1st, 1884, as provided in the amended Anderson bill, the surplus of the first half of that year would balance the loss of the last half, and there would be ample time to exhaust or call in the printed supply of government three cent envelopes. The surplus of the postoffice department in 1882 would be fully doubled, it is believed, in 1883.

Fire.

Saginaw, 8.—A fire this morning destroyed the Saginaw Barrel Company's works, Street's block, dry kilns and 2,000,000 feet of lumber, loss, \$75,000; insurance unknown. About 150 men are thrown out of employment.

St. Louis, Mo., 8.—Tuft & Co., Main street grocers, Ed. Hitchcock's building and Rankin & Lawton's book bindery, burned; loss, \$25,000; insured.

New York, 8.—The five-story building, 307 to 311 Canal street, owned by Arnold, Constable & Co., and occupied by the Manhattan Suit and Cloak company and Powers & Co., dealers in hosiery, was damaged \$70,000 by fire.

Columbia, S. C., 8.—The Wylie block, one of the largest business houses here, was nearly destroyed with most of its contents, by fire. Loss, \$60,000; insurance, half.

Crime.

North Adams, 8.—Stephen Tripp has been arrested on the charge of robbing the Troy and Boston cars, wrecking a train on that road October 28th, and securing money from the company for removing ties which he placed there, in shape of reward for preventing accident.

Louisville, 8.—The theory that John Trinter and wife had their throats cut by robbers for money, was set at rest, to-day, by the widow who recovered sufficiently to make an affidavit. The deed was done by her husband with a razor, first cutting her throat and then his own. She says no trouble existed between them.

Ostrich Farming.

Omaha, 8.—There passed here to-day on the Union Pacific train a special car containing twenty-two ostriches—eleven males and eleven females—en route to Southern California, to stock an ostrich farm to be started there by Hall Protheroe & Co., of Cape Town, South Africa, who are the leading ostrich farmers, breeders and exporters of the world. This will be the second ostrich farm started in the United States, the other one being in Texas. These ostriches are in splendid condition, having stood the long journey without any trouble. They are valued at \$2,000 each, landed in Southern California. They are accompanied by Dr. Protheroe and his assistant C. J. Sketcheley, an experienced ostrich farmer. The commercial value of the ostriches consist in their feathers, although breeding is a branch quite as profitable. Ostrich farming returns an enormous profit, and Dr. Protheroe says it can be successfully carried on in sections of the United States. It is proving a great success in the Argentine Republic, South America. He says ostriches multiply very rapidly and that in a few years the result from these twenty-two breeders will be thousands of ostriches, each pair producing from 50 to 60 chicks per year. In 1881 the importation of ostrich feathers into New York amounted to \$5,425,000.

WASHINGTON.

Washington, 8.—Nothing starting in the Dickinson case this morning.

Morrill introduced in the Senate to-day, an amendment to the bill for the reduction of taxes, which is really a tariff bill, with full schedules. It is recommended by the tariff commission as a substitute for the present tariff.

The House committee on foreign affairs has instructed Kasson, who has charge of the Nicaragua bill, to urge upon the House its consideration at an early date.

The First Comptroller of the treasury has decided that the rates fixed by the postmaster-general for proposals to carry mails and advertised in the newspapers, are final and not subject to review by any one.

The form of certificate to be used in connection with the awards made by the Garfield board of audit was completed to-day. The awards are to be included in one certificate and payment made to the board in bulk.

A member of the Senate military committee, speaking about dismissed army officers, said the committee was in no temper to listen to appeals for reinstatement, and that a visit of army officers to Washington would probably be fruitless.

Washington, 8.—Sugar importers and refiners of the country bitterly opposed to the recommendation of the tariff commission, in regard to the duty on sugar, are assembling here for the purpose of persuading Congress not to adopt that recommendation. They say while a nominal reduction of from 10 to 12 per cent, is recommended, nothing actual, in fact, is proposed, and that to adopt the recommendation of the commission would make the law more complicated and oppressive in relation to sugar interests.

The postoffice appropriation bill which will be reported from the sub-committee to the full committee, to-morrow, provides as follows: For the principal item of expenditure for the inland mail transportation, \$12,000,000; transportation by star route, \$5,500,000; railroad postal clerks, \$3,977,000; railroad postal cars, \$1,600,000; letter carriers, \$3,000,000; postmasters, \$10,000,000; inland transportation by steamboats, \$700,000; transportation of foreign mails, \$500,000; depositions, \$225,000; advertising, \$45,000. The above, with items not enumerated, make the total of \$43,000,000. The most important change is the reduction of letter postage from 3c. to 2c. Another notable change is the omission of the amount asked for special facilities (\$900,000). This means the abandonment of "fast mail" service. The bill will be reported to the House on Monday.

Important Indictments.

Richmond, Va., 8.—The grand jury has indicted H. Brown Allen, state auditor, for fraud in the appointment and qualification of the bond of D. Snellings, special delinquent tax collector. Snellings was also indicted on a charge of forgery in the execution of his bond. Robt. B. Mumford, commissioner of revenue, was indicted on a charge of conspiracy and complicity in the alleged forgeries, by which it is claimed a large number of illegal votes were procured at the last election.

Train Ditched.

Macon, Ga., 8.—A passenger train which left Macon this morning ran off the track near Euflala this afternoon. The entire train was thrown 100 yards from the track down an embankment, every person on the train, except the engine crew, were more or less injured. Mail Agent Harris, Express Messenger F. M. Falls and a train hand Wills are badly hurt.
